

Dear Members,

COVID-19 Preventive Measures

In view of the recent surge in COVID-19 cases, with immediate effect the Club will implement the following precautionary measures:

- Members' Guests from other States will not be allowed;
- Members of Affiliated Clubs will not be allowed to visit the Club.

Members who have recently travelled to States or Districts declared as RED zones by Kementerian Kesihatan Malaysia or have come into close contact with people who have recently travelled to RED zones are strongly advised to refrain from coming to the Club for 14 days.

These measures are necessary to protect our Members and staff. Moreover, if cases are found in the Club or implicating the Club through contact tracing, the authorities may shut down the Club.

Meanwhile, Members are reminded again to wear face mask, wash/sanitize your hands and practice social distancing while in Club.

Your understanding and cooperation will be appreciated.

By Order of the General Committee
12th October 2020
